

24-core connector box OEM

Overview

24 Core Fiber Optic Termination/Distribution Box model SP-1606-24A is used as a termination point for the feeder cable to connect with drop cable in FTTx communication network system. Meanwhile, it provides solid protection and management for the FTTx. FAT-24C Fiber Termination Box provides a high density wall mounted solution for next generation networks, which aims to provide and manage maximum numbers of fiber termination in a limited space. It is normally installed in the way of wall mounting or pole mounting. Features Water-proof design with. 24 core SC / 48 core LC fiber distribution box for the last mile installation The Fiber Optic Distribution Box features a convenient flip-up design, facilitating effortless fiber management during installation.
