

288-core optical cable single reel testing

Overview

Single reel inspection work includes: checking, counting, appearance inspection and measurement of the specifications and quantity of optical cables and connecting equipment transported to the site, and measuring the main optoelectronic characteristics. Universal OFC MLT: GLASS YARNS + CST + LSZH with 12 Tubes of Ø2. Universal (Indoor/Outdoor) dry core optical fiber Multi Loose Tube cable with glass yarns as strength member, Corrugated Steel Tape (Full Rodent Protected) armor and Low Smoke Zero Halogen outer jacket. The fibres shall be ribbonized for easy mass fusion splicing and termination with 12-fibre MPO style connectors. The cable shall be flame. Corning ALTOS® all-dielectric gel-free cables are designed for outdoor and limited indoor use for backbones in lashed aerial and duct installations. The loose tube gel-free design is fully waterblocked using craft-friendly, water-swellaable materials, which means cable access is simple and no clean. Enbeam OS2 Singlemode CST Armoured Fibre Optic Cable Loose Tube 288 Core 9/125 HDPE Fca Black, part of a huge range of OS2 fibre optic cables fully stocked at Mayflex. Providing high-fiber-counts in a rugged, compact design, the enhanced coupling features ensure the rib-bon stack and cable.
