

5-axis servo power distribution box

Overview

The DB-5 box is specifically designed to house and manage up to five servo drives, ensuring a streamlined and organized setup in your automation system. More Details on photos! NEW, without the original packaging! Warranty 12 months. Other models on inquiry! ABB servo products provide an extensive range of the motion and machine control solutions for the diverse industrial applications such as Packaging, Textile, Printing, Food and Beverage, Electronics and Electrical. With the global business network and professional technical competence, we help the. ELAU DB-5 is a compact distribution box designed for ELAU's PACDrive automation systems, providing reliable power distribution and signal routing for multi-axis motion control applications. This compact and robust distribution box offers unparalleled flexibility, efficiency, and reliability, making it an ideal choice for a wide. Bosch Rexroth's intelligent servo drives and power supplies improve machine functions by enhancing power, flexibility, and performance.
