

6a Distribution Box

Article Overview

A Distribution Box 6A is an IP67-rated enclosure designed for Cat.6A RJ45 connections, providing secure, weatherproof network distribution for up to 2 ports.

Overview

A Distribution Box 6A is primarily used to centralize and protect network connections in environments where durability and protection against dust and water are required. These boxes are compatible with Cat.6A cabling, supporting high-speed data transmission up to 10 Gbps, and are suitable for both indoor and outdoor installations .

Key Features

- **IP67 Rating:** Ensures complete protection against dust and temporary immersion in water, making it suitable for harsh or outdoor environments .
- **Port Configuration:** Typically comes with 2 RJ45 Cat.6A keystone ports, allowing connection of network devices or patch cables .
- **Cable Entry and Outlet:** Equipped with M16 cable glands for secure cable entry and strain relief, maintaining the IP67 seal .
- **Housing Material:** Durable plastic or reinforced polymer construction to resist impact and environmental stress .
- **PoE Compatibility:** Many models support Power-over-Ethernet (PoE) applications up to 90 watts, suitable for powering devices like access points or IP cameras .
