

8-circuit control distribution box

Overview

An 8-way MCB distribution enclosure with a DIN rail for mounting miniature circuit breakers, designed to organize and protect multiple circuits for indoor or outdoor use. This list includes substantive updates only and is not intended to reflect all changes. Constructed from PC+ABS alloy (200×155×92 mm), it is rated IP65 for dust and water protection, IK08 impact resistant, and ships. Combination illuminating distribution box is suitable for distribution control of modern buildings, such as large stores, guesthouse, stations, commercial net points, laboratories, factories and enterprises, used in AC 50-60hz, below 500V illuminating and mini power controlling circuit as over. The CH8L125 series distribution box is a high-performance power distribution device designed specifically for residential, commercial, and small industrial settings. It features a plug-in modular structure that supports flexible configuration of eight circuit passive sensor junction blocks with homerun cable receive input from a single power or data cable and distribute it to several cables without the need of an external power source. With over one million products and 24/7.
