

86 Fiber Optic Module Panel

Overview

The indoor 86mm type FTTH mini fiber optic faceplate employs a compact plug-in design, combines a modern design concept, adopts imported plastic, is of a graceful appearance and applicable for FTTH, FTTO and FTTD, etc., and allows easy use in different installation. NG4access ® Cabled Modules available in all module sizes and fiber counts up to 864 fibers NG4access ® Splice Tray Four sizes of interchangeable Propel fiber pass-through adapter packs provide the breadth of capabilities for virtually any configuration. Ensure seamless signal transfer with high-quality, snap-in modular designs. Ideal for data centers, offices, and smart buildings. The equipment is used as a termination point for the feeder cable to connect with the drop cable in the FTTX communication network system., and allows easy use in different installation environments. Combination structure, front and back double panel design, beautiful appearance, avoid exposed fixing screw holes. Be made in white fire-proof ABS plastic, the 86-fiber optical socket is designed in compact structure, small size, light weight and pleasing.
