

ASEAN Drawer Distribution Box Capacity Expansion

Article Overview

The ASEAN warehousing and distribution sector is rapidly expanding, with investments in automation, new facilities, and logistics infrastructure driving increased storage and distribution capacity across the region.

Market Growth and Capacity Expansion

The ASEAN warehousing and distribution logistics market is projected to grow from USD 33.11 billion in 2026 to USD 42.49 billion by 2031, reflecting a 5.11% CAGR over this period, driven by e-commerce growth, omnichannel retail adoption, and the China +1 production pivot . Another report forecasts the market to reach USD 35.24 billion by 2032, growing at 8.2% CAGR from 2025 to 2032, highlighting strong regional demand for expanded storage and distribution capacity .

Drivers of Expansion

- **E-commerce and Retail Demand:** Rapid growth in online shopping is increasing the need for high-density storage solutions, micro-fulfillment centers, and last-mile delivery hubs .
- **Automation and Technology:** Companies are deploying automated storage and retrieval systems, warehouse management systems, and IoT-enabled inventory tracking to optimize drawer distribution and maximize storage efficiency .
- **Infrastructure Investments:** Southeast Asian countries are expanding ports, airports, and expressways to support larger volumes of goods, enabling warehouses to handle higher throughput and improve distribution speed ...
