

All domestically produced industrial switches

Article Overview

High-quality industrial switches produced domestically in Germany include offerings from Switch GmbH, JUNG, and WAGO, designed for reliability, compliance, and long service life.

Key Manufacturers and Products

Switch GmbH provides a wide range of industrial components, including cam switches, switch-disconnectors, limit switches, microswitches, and foot switches. Their products are designed for machine control, automation, conveyor technology, and building technology, with protection classes up to IP67 and options for DIN rail, front, or base mounting. They also offer fuse holder combinations and busbars up to 320 A, ensuring compliance with international standards . JUNG manufactures switches and sockets entirely in Germany, focusing on precision, durability, and aesthetic quality. Their production in Schalksmühle and Lünen emphasizes sustainable processes, energy efficiency, and hand-finished components. JUNG switches are known for long service life, robust mechanics, and high-quality materials, including hand-brushed brass and hand-painted finishes for specialized ranges . WAGO offers industrial switches optimized for Ethernet network scalability with excellent electrical and mechanical properties. Their devices are robust, fully compliant with IEEE 802.3 standards, and suitable for demanding industrial environments .
