

Andorra Lighting Temporary Distribution Box Model

Article Overview

The XRM lighting distribution box is a lightweight, versatile temporary distribution device available in Andorra for secondary power distribution.

Overview

The XRM lighting distribution box is designed for temporary electrical distribution in various industries, including construction, events, and industrial applications . It is lightweight, making it easy to transport and install, and is suitable for secondary distribution tasks where flexible and safe power delivery is required.

Key Features

- **Portability and Flexibility:** The XRM box is compact and easy to move, ideal for temporary setups where quick installation and dismantling are needed .
- **Electrical Safety:** Equipped with harmonized protective devices, including circuit breakers and master switches, ensuring safe operation in temporary environments .
- **Connector Options:** Compatible with multiple connector systems, such as gesis® MINI, gesis® CLASSIC, and RST® systems, allowing adaptation to indoor or outdoor conditions and varying IP protection requirements .
- **Durability:** Constructed from robust materials to withstand mechanical stress, environmental exposure, and frequent handling .
- **Compliance:** Designed according to international standards like IEC 61439 for distribution boxes and IEC 61535 for connector systems, ensuring reliable and stan...
