

Andritz External Relay Protection

Overview

The DRS-LIGHT - a member of the protective relay family DRS - is a multifunctional, digital relay. As a single unit the field of application consists of protection for small generators, transformers, motors, feeders and back-up protection. 2016 This document is applicable to the following product(s): DRS © 2016 by ANDRITZ HYDRO GmbH, All rights reserved. Any kind of disclosure and reproduction. Introduction Settings Overview For an overview of the protection settings please refer to the following document: Dwg. In combination with other devices of the DRS-Family the. View & download of more than 106 Andritz PDF user manuals, service manuals, operating guides.
