

Battery storage cabinet with anti-tracking properties for use on islands

Article Overview

For secure, fire-resistant, and anti-theft battery storage on islands, options include Polarium anti-theft systems, asecos ION-LINE, Gunnebo SecureBattery Professional, SWA Energy outdoor cabinets, and DENIOS lithium-ion cabinets.

Fire-Resistant Storage Options

- asecos ION-LINE cabinets offer three safety levels (CORE, PRO, ULTRA) for passive or active lithium-ion battery storage, with fire resistance of 90 minutes and compliance with EN 14470-1 and EN 1363-1 standards. They include pressure relief, venting attachments, and optional fume extraction for sensitive environments .
- Gunnebo SecureBattery Professional cabinets provide fire-resistant construction (EI 180 min type A1) with thermo-expanding door seals to prevent heat and smoke ingress, and ventilation systems to avoid heat build-up during charging .
- DENIOS lithium-ion cabinets feature fireproof containment, liquid-tight spill sumps, self-closing doors, and oil-damped door closers, ensuring safe storage and compliance with workplace safety regulations .

Anti-Theft and Tracking Features

- Polarium Anti-Theft Cabinets integrate a patent-pending locking mechanism, embedded tracking devices, and an Edge Connectivity Module. The system disables the battery if tampered with, provides real-time location tracking, geofencing alerts, and remote recovery options, making it ideal for island installations where theft risk...
