

Bedroom electrical distribution box configuration price

Article Overview

Installing a standard residential electrical distribution box typically costs between \$600 and \$3,400, depending on amperage, installation complexity, and location.

Typical Cost Ranges

- 100–125 amp indoor panel: Total cost including the unit and installation generally ranges from \$600 to \$1,100 for a standard bedroom setup with basic wiring and accessible installation conditions .
- 200 amp upgrade or larger panel: For higher-capacity systems or more complex installations, costs can range from \$1,900 to \$3,400, including labor, new breakers, and wiring adjustments .
- National average estimates: Basic mid-range installation of an electrical service panel starts around \$1,305–\$1,581, which includes materials, connectors, and labor for standard conditions .

Factors Affecting Price

- Amperage and panel size: Higher amperage panels cost more due to larger breakers and heavier-duty materials .
- Indoor vs. outdoor installation: Outdoor or weather-resistant enclosures carry a premium compared to indoor panels .
- Wiring complexity: Longer wiring runs, rerouting, or structural modifications increase labor costs .
- Permits and local regulations: Permit fees and code compliance can add 5–15% to...
