

Brands of small busbars

Article Overview

Small busbars are available from leading manufacturers such as Eaton, ABB, Schneider, GE, Legrand, Panduit, Littelfuse, and Chatsworth Products, offering copper and aluminum options for compact electrical systems.

Leading Manufacturers

- Eaton: Offers both rigid and flexible busbars with copper or aluminum construction, including insulated and hybrid designs for automotive, industrial, and aerospace applications .
- ABB: Provides high-quality aluminum and copper busbars suitable for switchgear, EV charging, and renewable energy systems .
- Schneider Electric: Supplies compact busbar solutions for industrial panels and modular electrical systems .
- GE: Manufactures aluminum and copper busbars for high-current applications in industrial and commercial installations .
- Legrand: Focuses on aluminum busbars for building infrastructure and energy distribution .
- Panduit, Littelfuse, Chatsworth Products: Recognized for small busbars in control panels, power distribution units, and data centers .

Types and Materials

- Copper Busbars: High conductivity, excellent thermal performance, ideal for compact, high-current applications. Common in switchgear, data centers, and critical systems
