

Burkina Faso manufacturer of 40G passive optical network

Article Overview

FOLAN is a key manufacturer in Burkina Faso that designs and produces passive optical network (PON) equipment, potentially supporting 40G deployments.

Overview of FOLAN

FOLAN is a designer and manufacturer of optical fiber network equipment based in Burkina Faso. The company provides a complete range of solutions for FTTH (Fiber to the Home), FTTA (Fiber to the Antenna), and FTTO (Fiber to the Office) networks, as well as solutions for data centers and smart city projects. FOLAN's integrated design office allows them to customize passive optical network solutions to meet specific project requirements, including high-capacity networks that could support 40G PON deployments .

Capabilities and Services

- **Passive Optical Network Equipment:** FOLAN designs and manufactures splitters, optical distribution frames, and other passive components essential for PON infrastructure.
- **Network Deployment Support:** The company assists with planning, design, and implementation of fiber optic networks.
- **Customization:** FOLAN can tailor solutions for specific bandwidth requirements, which may include 40G PON for high-speed broadband services.
- **International Experience:** FOLAN serves multiple international clients, demonstrati...
