

Cable tray triangular frame

Overview

It's a device used for guiding and supporting cables as they are laid through cable trays, especially around corners. This roller typically features a compact frame with three rollers arranged in a triangular pattern, allowing it to efficiently navigate cables through confined areas. ABB designs and manufactures cable tray systems, including perforated tray, cable ladder, channel tray and strut (metal framing), directly from production facilities in Canada and Saudi Arabia. Our cable trays are produced in fit for purpose materials like stainless steel, galvanized, aluminium and fibreglass (FRP/GRP) composites to suit any project type both offshore and onshore. Cable trays for industrial and marine use. Request a quote directly via our webshop. Are you looking for high-quality Cable Trays for improved cable management and organisation?

Look no further than our extensive range, featuring top brands such as our very own RS PRO, Cablofil International, Legrand, and StarTech. These cable trays are designed to hold and support various. ECTRAY offer a wide range of perforated cable trays which are fabricated using quality raw material such as Zinc Aluminum Magnesium (ZAM). The main body is an integrated.
