

China Transportation Cable Tray Laying

Article Overview

China offers a wide range of cable tray systems, including ladder, perforated, solid, and wire mesh types, with professional installation and transportation solutions for industrial and commercial projects.

Types of Cable Trays

In China, cable trays are manufactured in various types to suit different applications:

- **Ladder Cable Trays:** Ideal for heavy-duty and long cable runs, providing excellent ventilation and heat dissipation. Commonly made from galvanized steel, stainless steel, or aluminum alloy .
- **Perforated Cable Trays:** Fabricated with drilled or perforated sheets for mechanical protection and ventilation, suitable for industrial and commercial installations .
- **Solid Bottom Cable Trays & Cable Trunking:** Provide maximum protection for sensitive cables, often used in data centers or areas requiring enclosed routing .
- **Wire Mesh Cable Trays:** Lightweight and flexible, suitable for point-to-point cable routing in hospitals, clean factories, and commercial buildings .

Materials and Durability

Cable trays in China are produced using high-quality materials to ensure durability and safety:

- **Galvanized Steel:** Offers corrosion resistance and affordability .
- **Stainless Steel (SS 304/316):** Provides long-lasting performance in harsh environ...
