

Comprehensive Price List for Fiber Optic Winding Tubes

Article Overview

Fiber optic winding tube prices vary by type, material, and volume, ranging from \$0.005/unit for high-volume heat-shrink sleeves to \$0.10/m for aerial figure-8 cables, with bulk orders offering significant discounts.

Price Ranges by Tube Type and Supplier

- Heat-Shrink Sleeves (High-Volume Projects): Qingdao Applied Photonic offers heat-shrink sleeves at \$0.005 per unit for orders of 100,000 units, ideal for large-scale deployments .
- Aerial/Figure-8 Cables: Ningbo Haishu provides figure-8 cables with integrated steel support at \$0.10 per meter for large orders (MOQ 2,000 meters), suitable for outdoor or aerial installations .
- Stainless Steel Tubes (Critical Infrastructure): Shenzhen Kexint supplies 1-96 core stainless steel tubes, offering maximum durability; prices are higher due to material and mechanical performance .
- Bend-Resistant Tubes (G657.A2): Shenzhen Wolck's 24-core bend-sensitive tubes minimize signal loss in tight spaces; pricing depends on core count and order volume .

Material and Specification Considerations

- Single-Mode vs Bend-Resistant: ITU-T G.652.D (standard single-mode) and G.657.A2 (bend-resistant) tubes differ in flexibility and attenuation performance
