

Custom-made distribution box manufacturer price

Article Overview

Custom-made distribution box prices vary widely depending on materials, size, customization, and order volume, typically ranging from \$30 to several hundred dollars per unit.

Factors Affecting Price

Material and Build: Distribution boxes can be made from cold-rolled steel, stainless steel, aluminum, ABS, PC, PVC, or PE. Metal enclosures generally cost more than plastic ones due to durability and IP-rated protection for outdoor use . **Customization Level:** Prices increase with custom dimensions, enclosure thickness, number and placement of knockouts, mounting options (flush or surface mount), and OEM branding like logo embossing . **Order Volume:** Larger orders reduce per-unit cost due to economies of scale. Small prototype runs or highly specialized designs are more expensive per unit . **Certifications and Standards:** Compliance with CE, ISO9001, RoHS, or IP65 waterproofing standards can affect pricing, as certified enclosures require stricter quality control . **Lead Time and Production Process:** Rapid prototyping or urgent delivery may increase costs. Manufacturers like EWJ and SKKBO provide end-to-end services from design review to delivery, which can influence pricing .

Typical Price Ranges

- Small plastic or ABS boxes for residential use: \$30-\$80 per unit
- Medium industrial-grade metal enclosures: \$80-\$200 per unit...
