

Dell Storage Fiber Optic Switch

Overview

The S5448F-ON 100/400GbE fixed switch comprises Dell Technologies' latest disaggregated hardware and software data center networking solutions, providing state-of-the-art, high-density 100/400 GbE ports and a broad range of functionality to meet the growing demands of today's. The S5448F-ON 100/400GbE fixed switch comprises Dell Technologies' latest disaggregated hardware and software data center networking solutions, providing state-of-the-art, high-density 100/400 GbE ports and a broad range of functionality to meet the growing demands of today's. Newest generation Connectrix MDS 64 Gigabits per second (Gb/s) Fibre Channel switches provide high-speed Fibre Channel connectivity for all-flash arrays and high-performance hosts. All the switch models below support NVMe/FC. Dell Technologies APEX is our breakthrough portfolio of as-a-Service offerings. demanding workloads and data-center consolidation. The Connectrix DS-7730B and DS-7720B platforms are built to connect more devices and build larger fabrics. With 128 64G ports in a 2U design, organizations can create high-scale fabrics in less space. The DS-7730B utilizes 96 64G SFP+ ports and. This document provides the deployment steps for configuring PowerEdge MX-series networking switches in SmartFabric mode to attach external FC storage. Examples include FCoE FIP Snooping Bridge (FSB), NPIV Proxy Gateway (NPG), and Direct Connect of FC storage devices. 8, appendix E. The Dell Connectrix family of Fibre Channel directors and switches moves your organization's vital business information to where it's needed quickly and securely, with the highest performance, the highest availability and unsurpassed reliability.
