

Distribution Box N1

Overview

The new generation of the N1 RMA free-standing distribution box series utilises innovative elements in the frame construction that enable a higher load capacity of 800 kg for all sizes while maintaining the construction strength. High stability of the construction The RMA has a robust welded. NEMA 1 Enclosures are available with 3 fronts. Email Address (For your convenience, you can send the page to up to three e-mail addresses at a time. Please contact the sender of this survey. Unique, innovative, versatile enclosure made of ABS or polycarbonate UL 94 V0 • Patented, innovative, hinged quick-release catch technology without screws: open with a screwdriver, close by hand • More than 25 sizes and 150 standard. such as mechanical engineering, for example, as classical. Murrelektronik supplies a comprehensive range of distribution boxes: They create optimum installations for any application and are cost-effective, reliable, and space saving solutions! • Saves space! Fewer terminal blocks, fewer cable entry systems, and fewer terminal boxes in the field are. All electrical enclosure must maximize its functionality by being easy to install and fix, and allow technicians a correct and comfortable accessibility.
