

Distribution box ptd

Overview

25/36 box with transformer is designed to reduce single-phase (220 V) alternating voltage to 36V for portable lamps, soldering irons, heating elements, and other electrical devices. Painted with powder paints resistant to atmospheric effects. This ready-to-use power distributor is perfect for powering your electrical devices on construction sites, industrial plants, workshops, garages and much more. Coupling mounting plate with fixing ears, suitable for both screw and ejection mounting. Thanks to our many years of experience, we not only supply electrical installation materials in various quantities in the private and commercial sectors at high quality and low prices, but also with a. PowerBox factory offers a vast range of PDUs, distro boxes, racks, panels, adapters, cable extensions and splitters to safely manage power distribution, all designed and built to be fully compliant with the safety regulations. Our production includes innovative customized sub-assembly of component. The PTD-0.
