

Dust Explosion-proof Lighting Distribution Box Factory

Article Overview

Leading manufacturers of dustproof and explosion-proof lighting distribution boxes include Warom Technology, CNKC Electric, Hualong Electric, and YXFB, offering certified, durable, and customizable solutions for hazardous environments.

Key Manufacturers and Products

Warom Technology specializes in explosion-proof illumination distribution boxes designed for industrial lighting automation, hazardous electrical systems, nuclear illumination, and defense applications. Their products feature a compound design combining flameproof (Ex d) and increased safety (Ex e) chambers, anti-static coatings, anti-loosening fasteners, and color-coded operating panels for safe and easy operation . CNKC Electric manufactures the BXM (D) explosion-proof lighting distribution box, a low-voltage device integrating switchgear, measuring instruments, protective appliances, and auxiliary equipment. These boxes support 220/380V voltage and 60-250A current, with manual or automatic switching and alarm functions for abnormal operation, ensuring reliable performance in hazardous environments . Hualong Electric (Jiangsu) produces LED explosion-proof lamps, all-plastic explosion-proof and anti-corrosion lamps, and explosion-proof distribution boxes. Their products comply with GB3836-2000 standards, hold national explosion-proof production licenses, and are ISO9001 certified. Plastic enclosures offer excellent corrosion resistance, lightweight design, and long-term stability in chemical, petroleum, and marine industries . YXFB offers easy-maintainable explosion-proof distribution boxes made from engineering plastics like glass fiber reinforced resin or...
