

Dutch Fiber Optic KVM Matrix Solution

Overview

Black Box introduced the DKM FX Compact Matrix Switch system using fiber-optic cables, guaranteeing high-quality, real-time digital video, and peripheral data distribution, impressing the center with its reliability and adaptability for future requirements. From small desktop KVM switches to enterprise KVM-over-IP solutions, KVM provides users with remote access to a variety of devices & computers, digital signage players, virtual servers, and more. Keyboard, video, and mouse (KVM) technology streamlines workflows and makes for easy, efficient, and. linear accelerator (LINAC) device delivers external beam radiation treatments for patients with cancer. It delivers tightly focused, high-energy X-rays to the region of the patient's tumor while also preserving the surrounding tissue. Usually, a KVM matrix consists of a combination of a central matrix switch and matrix-compatible KVM extenders.
