

EU Fireproof Cable Tray Price Company

Article Overview

Fireproof cable trays in the EU are available from multiple suppliers, with pricing and stock varying by material, fire rating, and configuration; quotes can be requested directly from manufacturers like Eurostrut, Trayco, and Niedax.

Suppliers and Options

Eurostrut offers cable trays made of hot-dip galvanized steel or stainless steel, suitable for indoor and outdoor use, with open or perforated designs that reduce overheating risk. They provide flexible widths, heights, and configurations, and you can request a quote directly via their webshop for fire-resistant models. Ekabel24 supplies high-quality cable trays, ladders, and trunking systems compliant with DIN EN 61537 and international standards. Their fireproof options include halogen-free and corrosion-resistant materials, ideal for industrial and construction applications. Pricing is available upon request through their online platform. Niedax offers RLC cable trays with fire resistance durations of 30 minutes, made from galvanized steel and including necessary accessories for installation. Specific product dimensions and fire ratings are listed on their site, and quotes can be requested for project-specific needs. Trayco specializes in Belgian-manufactured cable trays, mesh trays, and ladders, providing tailored solutions and consultancy for installation. They offer customized quotes based on project requirements, including fireproof options. Latakva provides fire safety cable trays, though stock and pricing are subject to daily changes. Direct contact is recommended for accurate quotes.

How to Obtain a Quote

- Identify your requirements: Determine tray type (ladder, perforated, mesh), mate...
