

EU Reference Price for 905nm Laser Diode

Article Overview

The price of 905nm laser diodes in Europe typically ranges from around €10 to over €100 per unit, depending on power, packaging, and module type.

Overview of Pricing

- **Standard 905nm Laser Diodes:** Basic bare diodes from suppliers like Mouser Europe and Farnell UK generally start at approximately €10–€30 per unit, depending on manufacturer and quantity purchased. These are suitable for OEM integration or experimental setups.
- **High-Power or Pigtailed Modules:** Laser diodes with integrated fiber optics, drivers, or higher output power (e.g., 50mW pigtailed modules) are more expensive, typically ranging from €80 to €150 or more per unit. These modules are designed for plug-and-play operation in laboratory or industrial applications.
- **Bulk Orders and Discounts:** Many distributors, including Mouser and Farnell, offer volume pricing, which can reduce the per-unit cost significantly for orders of 10 units or more.
