

Estonian Micro-module Manufacturing Plant

Overview

Solarstone, an Estonian firm specializing in solar-paneled roofs, has inaugurated an automated production line at its Viljandi plant, establishing it as Europe's largest integrated solar panel manufacturing facility. It extends far beyond the cost of land, influencing supply chain efficiency, operational costs, access to talent, and market reach. We're tracking Frankenburg Technologies, RAIKU and more Manufacturing companies in Estonia from the F6S community. If you're interested in the Manufacturing market, also check out the top Automation, Industrial IoT, 3D Printing. Kodumaja predominantly manufactures and builds apartments in apartment blocks and small dwellings, care homes for the elderly and disabled, student apartments and hotel accommodation. We build in Norway, Sweden, Finland, Denmark, the Netherlands and Estonia. We can deliver all classes of modular. On November 7th 2019 in Tallinn, Estonia, COMODULE took a giant leap towards being a game changer in the micro-mobility industry! COMODULE is happy to announce that once a small connectivity startup, now opened up their own factory and production. With nearly 40 years of experience, Naps is recognized for its expertise in the solar electricity industry.
