

Fiber Optic 48 Connector Box

Overview

The HTB8048 Fiber Optic Terminal Box is a versatile, high-capacity termination solution for FTTx applications, offering secure fiber splicing, distribution, and cable management. Built with an IP65-rated enclosure, this terminal box is designed to withstand harsh environments, making it suitable for outdoor use. The 48 Core fiber distribution box features a two-panel flip-up design, providing a separate working area for effortless management by the installer. This distribution box has a maximum capacity of 48 cores, with the Max. Assembly (Adapter) 48 Port Fiber Distribution Box providing 16, 24, 32 or 48 SC ports in a traditional two-layer design – a rear splice area for cable slack and splice protection, and a front interconnect area for SC ports.
