

Fiber Optic Fast Connector Brands

Article Overview

Leading fiber optic fast connector companies include CFOFC, HRI Connect, AFL Global, and major market players like Nokia, CommScope, and Arris, offering quick-install, pre-polished, and high-density connectors for telecom, FTTH, and data center applications.

Key Manufacturers and Their Offerings

CFOFC specializes in easy-to-install fast connectors with LC, SC, MPO, and other types. Their connectors feature zirconia ceramic ferrules, CNC-machined V-grooves, and support single-mode fibers (G652D, G657A1/A2). They are suitable for FTTH, LAN, and data centers, offering plug-and-play installation, high-density designs, and OEM/ODM customization options. HRI Connect GmbH provides the Carefiber Fast Connector series, including FC, SC, and LC variants for single-mode and multimode fibers. These pre-polished, no-epoxy connectors allow quick field assembly without tools, ideal for FTTH projects and indoor/outdoor installations. They support 250µm to 900µm fibers and offer PC or APC ferrules. AFL Global offers FASTConnect® mechanical connectors, which are factory pre-polished and use mechanical splice technology with index-matching gel. Compatible with 250µm, 900µm, 2mm, and 3mm fibers, these connectors support LC, ST, and SC types, enabling tool-less, low-loss terminations for enterprise, FTTx, and LAN applications.
