

Finnish High-Voltage Cast Busbar Manufacturer

Article Overview

Key Finnish manufacturers of high-voltage cast busbars include InterControl, WestimQpower Oy, Legrand Finland, and Ensto Building Systems, offering solutions from 25 A up to 6300 A with IP55–IP68 protection.

Leading Manufacturers

InterControl specializes in a wide range of busbars for efficient power distribution, supporting nominal currents from 25 A to 6300 A with a minimum protection class of IP55. They provide reliable, long-term solutions suitable for industrial and commercial high-voltage applications . WestimQpower Oy focuses on high-voltage equipment, including busbars, and offers tailored technical support throughout the project lifecycle. Their solutions are designed for high-quality performance in demanding electrical systems . Legrand Finland provides robust and durable busbars with aluminium or copper conductors embedded in epoxy resin, offering IP68-rated protection. Their systems are scalable, easy to install, and suitable for applications ranging from data centers to industrial power distribution . Ensto Building Systems manufactures high-quality electrification products, including busbar-compatible distribution blocks, emphasizing innovative electrical solutions and cable management technologies .
