

Guyana Low-Voltage Distribution Box

Article Overview

Low-voltage distribution boxes in Guyana are available from local integrators like CET-AMR and international brands such as Schneider and GEYA, offering modular, safe, and intelligent solutions for residential, commercial, and industrial applications.

Local Suppliers and Services

In Guyana, CET-AMR Ltd. in Georgetown provides engineering and integration services for low-voltage systems. They specialize in customized distribution box design, installation, and maintenance for construction sites, industrial parks, corporate offices, and residential locations. Their services include access control, mass notification systems, UPS integration, and solar power solutions, ensuring reliable and efficient power distribution tailored to specific needs .

Product Options

Schneider BlokSeT

The Schneider BlokSeT Active Low Voltage Switchboard is a modular system designed for high safety and intelligent management. Key features include:

- Modular compartments for circuit breakers, busbars, and cables, allowing rapid assembly and customization.
- High safety performance, including 85kA internal arc protection and IP54 rating for harsh environments.
- Intelligent monitoring, with wireless temperature sensors, V-loss measurement, a...
