

High-density outdoor constant temperature cabinets high precision in stock

Overview

Our cabinetry is designed to withstand the constant punishment of being exposed to sun, salt, rain, snow, and extreme high and low temperatures. It will not fade and it never needs to be painted. It has a durable, easy to clean surface and is FDA approved for food. A constant climate cabinet (also known as an environmental or climatic chamber) is a precision-controlled enclosure designed to simulate and maintain specific temperature and humidity conditions. These cabinets are essential for testing the reliability, durability, and performance of materials. Or add another product. Do you have a question or would you like advice?

Outdoor Cabinets Direct manufactures outdoor cabinets and outdoor kitchens that are 100% weatherproof. Originally produced for the yacht industry, Seaboard polymer will not rust, rot, corrode. Welcome to our collection of Outdoor Kitchen Cabinets crafted from High-Density Polyethylene (HDPE) with wood grain Fundermax Exterior Panels, High-Pressure Laminate (HPL) doors. Our commitment to quality and durability ensures that you'll find the perfect combination of style and resilience for. The weisstechnik brand's "constant testing devices" are used in a wide variety of markets - not only for long-term stability tests in the pharmaceutical industry.
