

High-voltage cable connector in distribution box

Overview

Heavy duty cable connectors are robust modular interfaces designed to transmit power, data, and signals through a single housing. When used at the main cable entry of a distribution box, they replace traditional cable glands or hard-wired connections. HV Junction Boxes and Electrical Enclosures manufactured by Abtech are engineered for the safe distribution, cable termination and protection of high voltage. Maximize performance by leveraging Molex SideWize High-Voltage Connectors designed for space savings in power distribution applications. Providing high-current and high-voltage. Standard high voltage connectors for voltages up to 100kV. The single pole high voltage connector pairs HC7M-xx (cable mounting plug) and HC7F-xx (instrument. Abtech DPJB high voltage hazardous area electrical enclosures and junction boxes provide safe power distribution for 11kV systems up to 630sqmm cables - ATEX certified for Zone 1 and Zone 2 connection of HV cables in hazardous area locations. DPJB high voltage 'down hole pump'. By: Thor, Senior Electrical Engineer at Weisho Electric Co.
