

How much does a Belgian cable tray suspender frame cost

Article Overview

Belgian cable trays typically cost between \$2 and \$25 per meter, depending on material, type, and finish, with suspender frames adding extra depending on design and load capacity.

Price Range and Factors

The cost of cable trays varies widely based on material, type, size, and surface finish. Common materials include:

- Galvanized steel: Durable and cost-effective, often the standard choice.
- Stainless steel: Corrosion-resistant but more expensive.
- Aluminum: Lightweight and rust-proof, moderately priced.
- Plastic trays: Budget-friendly but suitable only for light loads .

Tray types also affect pricing: ladder trays are more expensive due to their load-bearing capacity, while wire mesh or perforated trays are cheaper and ideal for lighter cabling . Coatings such as hot-dip galvanizing (HDG) or powder coating increase durability and cost, whereas pre-galvanized trays are cheaper but less resistant to corrosion .
