

How much does a finished fiber optic cable cost

Article Overview

A finished fiber optic cable typically costs between \$0.09 and \$6 per foot, depending on fiber type, strand count, and whether it is pre-terminated or armored.

Material Costs

- Single-mode fiber (OS2): \$0.09 to \$1.52 per foot for standard cables; higher-quality glass or pre-terminated assemblies can increase the price .
- Multimode fiber (OM3/OM4): \$1.50 to \$6 per foot, reflecting the wider core and higher manufacturing standards .
- Armored cables: \$0.50 to \$6.50 per foot, designed for harsh environments or direct burial .
- Low-count drop cables (e.g., 1-core FTTH): around \$0.13 per foot, while high-count backbone cables (e.g., 288 strands) can reach \$6 per foot or more .

Pre-Terminated and Patch Cables

Pre-terminated cables, which come with factory-installed connectors, cost more upfront but reduce on-site labor. These assemblies can increase material costs by 20–30% but may lower total project costs by up to 70% due to reduced splicing and termination labor .

Installation and Total Project Costs...
