

How much does a meter of 12-core ASS fiber optic cable cost

Article Overview

The price of a 12-core fiber optic cable typically ranges from \$0.50 to \$6.50 per meter, depending on type, construction, and quality.

Price Range

- Standard 12-core fiber cable: Approximately \$0.50 per meter for basic indoor or non-armored versions with standard PVC jackets and generic glass cores .
- Armored or LSZH (Low Smoke Zero Halogen) cables: Prices can rise to \$6.50 per meter, reflecting enhanced durability, fire safety, and premium materials .
- Multimode (OM3/OM4) cables: Typically cost more than single-mode due to manufacturing complexity, ranging from \$1.50 to \$6.00 per meter .

Factors Affecting Cost

- Cable Construction: Armored cables or those designed for direct burial are more expensive than indoor riser-rated cables .
- Fiber Type: Single-mode fiber is generally cheaper than multimode fiber, but multimode supports higher-speed data transmission .
- Jacket Material: LSZH jackets cost 25-40% more than standard PVC due to safety and environmental benefits .
- Brand and Quality: Premium brands like Corning offer lower attenuation and higher reliability, increasing the price compared to generic glass .
- Bulk Orders: Purchasing in large quantities from OEM or factory distributors can reduce the per-meter cost significantly
