

How much does a single-mode 24-core fiber optic cable cost

Article Overview

The typical price for a single-mode 24-core fiber optic cable ranges from \$1.50 to \$3.50 per meter, depending on specifications and construction.

Pricing Overview

Single-mode 24-core fiber optic cables are designed for long-distance communication and high-performance applications. The current market range for standard single-mode 24-core cables is approximately \$1.50 to \$3.50 per meter, with variations based on cable type, construction, and materials used . Multimode versions are slightly cheaper, generally ranging from \$1.20 to \$3.00 per meter . Bulk purchases or wholesale orders may offer lower per-meter costs, while pre-terminated or armored cables can increase the price .

Factors Affecting Price

- **Cable Construction:** Tight-buffered cables, commonly used indoors, are less expensive, whereas loose-tube or armored cables for outdoor or direct burial applications cost more due to additional protection and materials .
- **Materials:** High-grade glass fibers, UV-resistant or fire-retardant jackets (e.g., LSZH), and aramid yarn strength members increase durability and performance, impacting cost .
- **Application:** Indoor riser-rated cables are cheaper than plenum-rated or outdoor cables with water and UV resistance .
- **Region and Market Conditions:** Prices can fluctuate based on raw material costs, e...
