

Installation of Outdoor Distribution Boxes in Benin

Article Overview

Outdoor distribution boxes in Benin should be installed following BEDC SOP guidelines, ensuring proper placement, IP-rated enclosures, and compliance with local electrical standards.

Regulatory Compliance and Standards

In Benin, the Benin Electricity Distribution Company (BEDC) provides a Standard Operating Procedure (SOP) for the installation and connection of electrical infrastructure, including outdoor distribution boxes. This SOP ensures compliance with NESI Distribution Codes (D-Codes) for network planning, construction, safety, operation, and maintenance. Before installation, applications must be submitted for approval, accompanied by network planning and analysis documentation. Installers must follow local codes and ensure all equipment meets UL, CE, or equivalent certifications.

Equipment Selection

Outdoor distribution boxes, such as the SHA series, are designed for both indoor and outdoor use. Key specifications include:

- Material: ABS shell with PC door, halogen-free and silicon-free materials
- Protection: IP65 waterproof and dustproof, IK09 impact resistance
- Capacity: 4 to 36 modular channels, rated voltage 400V, rated current 75A...
