

Israel ADSS Fiber Optic Cable

Article Overview

APAR and Teldor are leading Israeli manufacturers of ADSS fiber optic cables, offering high-capacity, reliable solutions for telecom and utility networks.

Key Companies

APAR specializes in a wide range of fiber optic cable solutions, including ADSS and Figure-8 aerial cables for utility and telecom networks. Their manufacturing facilities feature latest-generation automated equipment, ILAC MRA-accredited testing labs, and robust R&D capabilities, ensuring high-quality, low-lead-time production. APAR produces unitube, multi-tube, breakout, tight-buffered, and ribbon optical cables, suitable for FTTH, long-distance transmission, and emergency communication systems. Teldor Cables & Systems is a well-established manufacturer providing specialist cables for telecommunications, military, marine, and industrial applications. Teldor's ADSS cables are designed for extreme environmental conditions, with options for armored, dry fiber optic (OSP) cables optimized for long-distance aerial installations. The company emphasizes customization, technical innovation, and compliance with industry standards, making it a reliable partner for critical infrastructure projects.

Additional Notable Providers
