

Italian distributor of QSFP28 optical router

Article Overview

QSFP28 optical transceivers for 100G Ethernet can be sourced in Italy through international suppliers like FS, QSFPTEK, Accelink, Pivotal Optics, and Smartoptics, many of which offer shipping or local partners.

Key Suppliers and Options

FS (Fiberstore) offers a wide range of 100G QSFP28 modules suitable for data centers, enterprise networks, and service provider applications. They provide international shipping and have warehouses that can deliver to Italy, along with a 30-day return policy for convenience and reliability . QSFPTEK specializes in high-density, high-reliability optical transceivers, including QSFP28 modules. Their solutions are designed for low-latency, high-bandwidth networks, making them suitable for AI clusters, HPC, and large-scale data centers. QSFPTEK supports international inquiries and can provide guidance on module selection for specific network architectures . Accelink manufactures QSFP28 transceivers such as the RTX290-807 ER4 LITE, which supports 100G Ethernet over single-mode fiber up to 30 km. These modules comply with IEEE 802.3bm standards and are RoHS compliant, making them suitable for professional networking deployments . Pivotal Optics offers a broad range of optical transceivers, including QSFP28, SFP28, and QSFP-DD modules, covering 1G to 400G solutions. They cater to data centers and enterprise networks and provide online ordering with international shipping options . Smartoptics provides QSFP28 transceivers optimized for 100G Ethernet, including both Coherent 100G QSFP28 for extended reach and PAM4 QSFP28 for cost-effectiv...
