

JXF is the fire protection distribution box

Overview

The JXF low-voltage integrated distribution box is a high-quality product designed and manufactured by Shangming Factory. It has an IP55 protection rating, an internal mounting base for installing various electrical equipment, and a door that opens to more than 110 degrees and. JXF low-voltage integrated distribution boxes are made of cold-rolled steel plate, bent and welded, with an epoxy resin electrostatic spraying treatment on the surface, making them aesthetically pleasing and durable. This is one of the product types that Shangming, as a manufacturer and supplier of. In the industrial electrical sector, when you mention delixi jxf distribution boxes, many industry professionals will give them a thumbs up. This compact junction box is not only highly functional but also incredibly versatile. Suitable for various buildings, industrial, and commercial settings, it enhances the reliability and safety of power systems. It is used in the AC 50Hz power. JXF series products are suitable for power, lighting and loop power distribution control, monitoring and metering protection in 50Hz~60Hz, single-phase two-wire, three-phase three-wire, three-phase four-wire and three-phase five-wire systems with voltage below 500V. Product Description JXF series.
