

Malaysia Vertical Explosion-proof Distribution Box

Article Overview

Vertical explosion-proof distribution boxes in Malaysia are available from certified suppliers like ISEP, IEP, Deltric, and Mcare, offering ATEX, IECEx, and local compliance for hazardous environments.

Overview

Vertical explosion-proof distribution boxes are designed for hazardous areas where flammable gases, vapors, or dust may be present. These enclosures prevent ignition of explosive atmospheres and are built to withstand high temperatures, corrosion, and mechanical stress. They are commonly used in oil & gas, petrochemical, power plants, and industrial facilities in Malaysia .

Key Suppliers in Malaysia

- ISEP (Industrial System Engineering & Products): Provides design, fabrication, and certification of Ex systems, including vertical distribution boxes. Their products comply with IECEx, ATEX, and ISO standards, ensuring safety and reliability in hazardous areas .
- IEP Malaysia: Offers a wide range of explosion-proof enclosures including Exd, Exde, Exe, Exn, Ex ia, Ex p, Ex q, and Ex m types. They provide customization for different applications and ensure compliance with UL and international standards .
- Deltric: Specializes in lightning protection and earthing solutions, also supplying explosion-proof distribution boxes suitable for industrial and infrastructure projects...
