

Mexican Mesh Cable Tray Specifications

Article Overview

Mesh cable trays in Mexico are widely available from local manufacturers like Jeetmull Jaichandlall, Tecnotray, Basor Electric, and Eaton, offering versatile, durable, and certified solutions for commercial, industrial, and IT applications.

Overview and Applications

Mesh cable trays, also known as wire mesh or basket trays, are constructed from metal wires woven or welded together, providing a lightweight yet strong support system for electrical, data, and communication cables. They are commonly used in data centers, IT rooms, commercial buildings, and industrial facilities due to their excellent ventilation, visibility, and flexibility in routing cables. The open design prevents heat buildup and allows easy inspection and maintenance.

Key Manufacturers in Mexico

- Jeetmull Jaichandlall (P) Ltd.: Offers a wide range of wire mesh cable trays in various sizes, shapes, and colors, tailored to industry-specific requirements. Their products are durable, impact-resistant, and suitable for multiple sectors including construction, agriculture, and automotive.
- Tecnotray: Provides 100% Mexican-made mesh trays with certifications from ANCE, LAPEM, PEMEX, and UL, ensuring reliable installations. Their TECNOMALLA system is lightweight, ideal for low-load applications like voice, data, and power cabling in controlled environments such as office ceilings, IT rooms, and shelters.
- Basor Electric: Supplies a comprehensive range of cable trays with technical documentation, BIM models, CAD files, and software tools for precise project planning...
