

Monaco Fire-Resistant Cable Tray Prices

Article Overview

Fireproof cable tray prices in Monaco vary widely depending on material, fire rating, and supplier, typically ranging from €50 to €300 per meter for standard industrial-grade trays.

Overview of Fireproof Cable Trays

Fireproof cable trays are designed to protect electrical cables from fire hazards while maintaining structural integrity. They are commonly made from:

- Steel with fire-retardant coatings for high strength and durability
 - Aluminum alloys for lightweight applications
 - FRP (Fiber Reinforced Polymer) for excellent corrosion and fire resistance
- These trays are available in ladder-type, perforated, and solid-bottom designs, with ladder-type being ideal for heavy power cables and better ventilation .

Factors Affecting Price

- Material: Steel trays are generally less expensive than FRP or hybrid trays with specialized coatings.
- Fire Rating: Certified trays with 60, 90, or 120-minute fire resistance are priced higher due to testing and compliance requirements .
- Load Capacity: Trays designed for heavier cable loads or industrial use cost more.
- Supplier and Origin: European suppliers, including Monaco-based distributors, may charge a premium compared to imported products from Asia .
- Customization: Custom lengths, widths, or integrated fireproofing elements increase cost
