

Multimode fiber optic finished products

Overview

Choose pre-terminated multi-strand fiber cables, patch cables/panels, Active Optical Cables (AOCs), & bulk fiber cable. Eliminate time-consuming, labor-intensive field termination with pre-terminated fiber assemblies. ClearCurve multimode laser-optimized, bend resilient fibers are widely deployed to deliver high data rate, low latency transmission. As the inventor of bend-insensitive optical fiber, Corning ensures quality and reliability by measuring key attributes, including effective modal bandwidth on every. Multi-mode optical fiber has a core diameter that is much larger than the wavelength being carried. The large core allows for high numeric apertures for superior light gathering compared to single mode fibers. OFNR Cable— OFNR (optical fiber nonconductive riser) cords prevent the spread. Multimode Fiber Optics are available at Mouser Electronics.
