

New Intelligent Low-Voltage Distribution Cabinet

Overview

SP-JP intelligent low-voltage integrated distribution box is a distribution transformer integrated distribution cabinet integrating power distribution, metering, protection (overload, short circuit, leakage, overvoltage, undervoltage and phase shortage, etc.), automatic. Digital technologies such as Cloud Computing, Big Data, Internet of Things (IoT), Artificial Intelligence (AI) and Industry 4.0 are phenomenon which are changing the world we are living in. To answer the most demanding market. Explore the innovation Product Center and open up a new future for green energy Imax Power Smart Low-Voltage Hybrid Cabinet: Enabling Safe and Efficient New Energy Grid Integration Driven by “dual carbon” goals, new energy installations surge. It has two or more functions of metering. Intelligent Low Voltage Distribution Cabinet by Application (Residential, Public Construction, Commercial), by Types (6300A Maximum Rated Current, 7400A Maximum Rated Current, Others), by North America (United States, Canada, Mexico), by South America (Brazil, Argentina, Rest of South America), by. From traditional mechanical distribution equipment to intelligent energy Internet nodes, from single product supply to one-stop customization solutions, LV switchgear cabinet is no longer just a "power distribution box", but a core device connecting power grid, load and new energy.
