

Optical Power Meter Bare Fiber Adapter

Overview

HFBR simplex / duplex, Mini Toslink, bare POF cable, 2. A multi-purpose POF adapter for power meters. Turn the turret to the required hole size: 3. HFBR & POF multi-connector to XL optical power meter. The F-AS and F-AM Bare Fiber Adapters enable quick and easy temporary connections of single-mode and multimode fibers. These adapters are very useful for connecting fibers to power meters, optical time-domain reflectometers (OTDRs) and a variety of other instruments, enabling in-situ. AC Detector Adaptors are designed for use with the VIAVI MAP series optical power meters (mOPM), Insertion Loss/Return Loss Meters (mORL and mOLM); Swept Wavelength System (mSWS); the Optical Component Environmental Test System (OCETS); and legacy JDSU product lines. This standard footprint adapter with full flange or no flange offers a quick and easy solution to extend an. FC Bare fiber adapter is a very efficient media to connect bare fiber to fiber optic device, it usually used in installation to test links. Quickly test unterminated singlemode.
