

Photovoltaic power combiner box ex-factory price

Article Overview

The typical 2026 ex-factory (FOB China) price for a standard 6-in-1 or 8-in-1, 1500V DC, IP65 PV combiner box ranges from approximately \$50 to \$310 per unit, depending on quality, components, and certifications.

Price Range and Factors

PV combiner box prices vary widely due to differences in internal components, enclosure quality, certifications, and optional features. Basic 6-in-1 or 8-in-1 boxes with IP65 protection and CE certification can start around \$50 per unit, while higher-end models with premium surge protection devices (SPDs), branded fuses, and full monitoring capabilities can reach \$310 per unit. This wide range reflects differences in component quality, safety features, and manufacturer reputation.

Cost Structure

The main cost drivers for a PV combiner box include :

- Internal DC components (40-55%): SPDs, PV fuses, fuse holders, DC load-break switches, MCBs or MCCBs, and copper terminals.
- Raw materials (15-20%): Copper busbars, steel or high-grade plastic enclosures, and internal wiring.
- Enclosure and ingress protection (10-15%): IP-rated gaskets, cable glands, UV-resistant coatings, and door hardware....
