

Price of Armored Optical Cable Terminal Box

Article Overview

Armored optical cable terminal boxes typically range from \$20 to \$150 per unit, depending on port capacity, material, and features.

Price Range and Factors

The cost of an armored optical cable terminal box varies based on several factors:

- **Port Capacity:** Boxes can range from 2 ports up to 48 ports. Higher port counts generally increase the price due to more splice trays and adapters .
- **Material and Durability:** Boxes made from ABS, ABS+PC, or metal alloys with flame-retardant and waterproof properties (up to IP68) are more expensive than basic plastic models .
- **Armored Cable Compatibility:** Boxes designed for armored cable introduction, grounding, and protection typically cost more due to additional internal hardware and protective features .
- **Design Features:** Dual-layer designs, dedicated splicing trays, and easy installation options (wall or pole mounting) can affect pricing .
- **Supplier and Customization:** Factory or wholesale pricing from Chinese suppliers may offer lower costs, especially for bulk orders or OEM/ODM customization .

Typical Market Estimates

- Small 2-8 port boxes: \$20-\$50 per unit...
