

Price of Electro-shearing Cable Trays

2. Imported design is convenient for expansion.

The design of two inlets saves space and allows for rear line entry.

Article Overview

Electro-shearing cable trays, particularly electro-galvanized wire basket types, typically range from \$15 to \$50 per 2.4-meter section depending on material, size, and manufacturer.

Pricing Overview

Electro-shearing cable trays are commonly made from electro-galvanized steel, which provides corrosion resistance and durability for indoor applications. Prices vary based on tray type, material, and load capacity:

- **Wire Basket Cable Trays:** Lightweight, ventilated, and easy to install, these trays are ideal for data and communication cables. Prices generally start around \$15-\$25 per 2.4-meter section for standard sizes, with larger or heavier-duty trays costing up to \$50 per section .
- **Galvanized Steel Ladder Trays:** Hot-dip galvanized ladder trays, suitable for heavy-duty power cables, are priced per standard 2.4-meter length. Typical costs range from \$30 to \$60 per section, depending on width and load rating .
- **Aluminum Trays:** Lighter and corrosion-resistant, aluminum trays are usually less expensive than stainless steel but slightly higher than mild steel, often \$20-\$40 per 2.4-meter section .
- **Stainless Steel Trays:** Recommended for high-corrosion environments, these trays are more expensive, generally \$50-\$100 per section, reflecting their durability and resistance to chemical exposure .
