

# Price of Fireproof Sealing Materials for Cable Trays

## Article Overview

Fireproof sealing for cable trays ranges from \$0.58 per unit for polyurethane foam to premium intumescent pillows and caulks costing several dollars per piece, depending on size, fire rating, and supplier.

### Fireproof Pillow Solutions

#### 3M Firestop Pillows

- Medium self-locking pillows (FSP-SLP-M) are used to seal openings around cable trays.
- Each opening also requires two sticks of moldable putty (FSP-MPS).
- Pricing is typically project-specific; quantities depend on tray size (e.g., a 4" x 12" tray requires pillows for a 7" x 15" opening) and fire rating (up to 3 hours F-rating for concrete walls) . AF BAGS Fireproof Pillows
- Intumescent and ablative pillows certified under EN 1366-3, suitable for cable diameters up to 21 mm.
- Sealing depth: 120 mm; fire protection up to EI 240.
- Supplied in a 200 g/m<sup>2</sup> non-combustible fiberglass casing with intumescent compounds.
- Price depends on the number of pillows required for the penetration size; these are repositionable and suitable for maintenance or modifications .

### Fireproof Sealants...

## Article Content

### Firestop

Our premium, intumescent latex/water-based caulk. This is an affordable firestop caulk that helps you stay on budget. Its unique

### Firsto System | CSD Sealing Systems
